HENRY BOSCH COMPANY'S

BULLETIN

Painters' and Paper Hangers' Trade Journal

H. B. Co. JUNE 1925 Chicago

You Can Find It, Too

In a recently published biography of Cyrus H. K. Curtis, the highly successful owner and publisher of "The Saturday Evening Post," "The Ladies' Home Journal" and "Country Gentleman," we are told that he began life in Portland, Me., as a poor boy and at a very early age it became necessary for him to begin earning money. Having no capital he turned to selling papers but found every corner and suitable location already occupied and there seemed to be nowhere to establish himself. Worried but not disheartened, he looked around and finding that the soldiers at the fort (this was during the Civil War) had no newspaper service he got a few papers and took them out as an experiment. They were eagerly purchased and he worked up a thriving little business. This was the beginning of an increasingly prosperous career.

There is hardly any locality in which there is not a chance to find business by earnestly looking for it, and this is especially true of the painting and decorating business. Homes, stores and farm buildings are to be found everywhere. Many of them need painting and decorating and you can get the work if you go after it. Talk to owners. Show them the advantage of keeping their property in good condition. You can't land every prospect, of course, but a surprising number of them will be open to common sense arguments and you can keep busy practically all the time.

The man whose business grows steadily is the man who keeps persistently after it.

We can help you keep that business going nicely by furnishing practically everything you need. Wallpaper in great variety; paints, varnishes, enamels and stains suitable for each and every job, brushes, tools, and equipment of all kinds—and equally important, PROMPT SERVICE ON ALL.

We guarantee you—*fair prices*, *good values*, and the privilege of returning any merchandise (we pay charges) if not satisfactory and money will be cheerfully sent back. Place your business with us on this liberal basis.

All the year 'round our wallpapers are in stock—buy here and avoid disappointment.

USE THIS GOOD CUT

Here's an advertising cut that will show up fine in your newspaper—and it's just the time to push painting. The cut will cost you nothing—we'll send it free. Your editor won't charge you much for running it.

Look at the attractive newspaper cuts and picture show slides illustrated on pages 62 and 63 of your Home Decoration Book.

They make a good impression on buyers and will help your business. We furnish any that you want free.

"Help Make
YOUR HOME TOWN
the Prettiest Place on Earth"

DO your share by keeping your home attractively painted. Painting is good economy, too. It prevents decay and saves repair bills.

Henry Bosch Co.'s Paints have a fifty years' reputation back of them for wear and service. Every gallon guaranteed. Offered in a fine range of colors and suggestions made for the proper combination for your house. Estimates gladly given,

Your printer will set up your name, address, phone, etc., here.

CUT No. 8

It is **doing things** that counts. One may have all the good intentions in the world, but if they are not made manifest in deeds to what do they amount?

SOME PAINTING NOTES

Do not add too much drier to your paint—take into consideration the weather and the temperature—paint dries quicker in warm, dry weather. An excess of drier, strange as it may seem, retards the drying process.

Some colors are poor driers—especially lamp black. The addition of some Prussian blue will help the drying and increase the apparent blackness of the lamp black.

Umber dries well and where used for coloring paint very little drier is needed.

Benzine used for thinning paint is apt to make it dry soft.

A little benzine is frequently used to make enamel flow well and spread easy—it evaporates entirely and does not affect the gloss as turpentine does.

In preparing the priming coat for white pine use 20 per cent turps and 80 per cent linseed oil. Any soft wood should have a good percentage of turps in the priming coat for penetration.

In painting red wood use in mixing the priming coat some benzol as this softens the gum in the wood and enables the paint to penetrate. A good proportion is 70% raw oil, 20% benzol and 10% turpentine. Benzol is volatile so do not add it until you are ready to use the paint on account of its evaporation.

Cypress also needs a penetrating paint and the use of benzol is recommended.

Yellow pine is a hard wood to paint satisfactorily on account of its gummy nature. Benzol is useful for this wood, too, and some painters add a little pine tar to the priming coat. Use the primer very thin with a considerable amount of turpentine.

For any painting a little red lead added to the priming coat is desirable.

Have every priming coat thin. It penetrates better and makes a better foundation for the outer coats. A partly worn brush is better for the priming coat than a new brush.

Do not use yellow ochre for priming. Much trouble in painting is the result of doing so. It dries hard and the following coats of paint or lead and oil do not adhere well to it, consequently there is much peeling and blistering when a yellow ochre primer is used.

The Bride (at the telephone):—"Oh, John, do come home. I've mixed the plugs in some way. The radio is all covered with frost, and the electric icebox is singing 'Way Out West in Kansas.'"—Life.

No. 231 White Metal Stucco Brush on page 72 is a dandy.

Chicago's Gala Wallpaper Night

WITH one flying leap The Chicago Wall Paper Association took its place in the social hall of fame Friday night, February 27th, when its first ladies' night was celebrated at the Rainbo Gardens.

There are 175 nembers in the Association, and when dinner was served at 7:30 o'clock, 987 guests were assembled in one of the merriest parties ever entertained within those walls

They came from all sections of Chicago, and from suburbs within a radius of fifty miles; with an average of nearly five guests for every member, it amply proved that this Association is made up of "go-getters."

Wallpaper hats adorned the heads of all, ranging from snappy "polo" caps to "stovepipes" and sombreros, while a favorite with the men was a replica of the headgear of our soldiers in the War of 1812. Twenty-six members in one cast appeared in the wallpaper hats. The seventeen acts were all that was promised and made a big hit with all present.

Never did the big dancing floor present a more brilliant spectacle. Many who had believed their dancing days over, yielded to the appeal of the music and atmosphere and swung in.

An announcement was made over the radio that a booklet on interior decorating would be sent all those addressing the broadcasting station WQJ and, as evidence that the message hit a happy chord with the radio fans who "listened in" at home, booklets are being mailed in response to 487 communications which were received from points spreading well over the country bounded on the North by Quebec, Canada; South, Dallas, Texas; West, Denver, Colorado; East, Bronx, New York. The majority of the members of the wallpaper manufacturers supported the movement and communications were received fom the officers of various companies advising that they had "listened in" and congratulated the Chicago Wall Paper Association on the success of the movement.

The Chairman of the Speakers' Bureau, Mr. Frank Emerson, went out on the air from the Rainbo Garden's famous broadcasting station, WQJ. His address follows:

"Listeners—Everywhere:

"This is the first and only chance of my life to tell the world anything, and so I grasp this opportunity to inform the world in general, and the wallpaper trade in particular—New York, Philadelphia, Pittsburgh and Kansas City ('lend me your ears'), that the Chicago Wallpaper Association are at the Rainbo Gardens tonight on a festive occasion, and with them are their wives, their sisters, their cousins and their aunts, and their best girls, of course,—nine hundred strong, as just reported, and the turnstiles are still clicking. And here I would like to remark that Rainbo Gardens are all that the name implies, and it is a good name and suggests our business. I don't see any wallpaper on the institution, but in naming the place the management certainly recognized the value of form and color, and that's a good start and in our direction.

"And this is ladies' night, you observe. But ladies' nights with us are not rare occasions, for we believe in, work with and work for, the women of this country every day in the year; for in the final analysis, woman buys the wallpaper and lives with it, and we think it is her right to select whatever she has to live with, and this includes wallpaper, hats, homes or husbands, and, with beauty, style, comfort and durability thus involved, this is no job for laymen. In fact, it was a woman who gave us our slogan: 'Without wallpaper it is only a wall.'

"And right here I'll tell the world she said something. She proclaimed the rock on which our faith is founded and our business stands. 'Without wallpaper it is only a wall.' and walls are not easy to look at, but they are useful, for they not only hold the building together, but they provide the surface to be covered by wallpaper, and as we are decorators, we cover that surface, we don't 'save' it.

"Plain walls to us are decorative silence, entirely without expression. They may be all right for warehouses, where no one listens, or hospitals where no one talks, but for the modern bungalow they are lacking in warmth and welcome.

"Our idea of the zero of home decoration is any room, handsomely furnished with costly rugs, beautiful furniture and distinctive appointments, and then entirely surrounded by nothing.

"You know Edgar Guest says: 'It takes a heap o' livin' in a house to make it home,' but as you can't do a heap o' livin' with nothing any more than you can live on nothing, we think that Eddie had provided for wall paper when he wrote that line.

"Wallpaper is not only a decoration without a substitute; it is an essential philosophy. Wallpapers mean something. They reflect intelligence; designed specifically to express the character of dining room, living room, library or hall, each reflects a different phase of home life, and if properly used will add another confirmation to that poetic inspiration, 'There is no place like home.'

"Furthermore, whether you know it or not, we all respond to color. We are made restless or contented, happy or miserable by the color influences in our homes. If depressed, you may have unconsciously partaken of the monotony of your surroundings. You want a change. You may need it. But instead of going to Florida, go home and change the atmosphere and expression of the rooms you live in. You know the sense of satisfaction, of optimism, of even power, that comes with new clothes. Well, walls should not wear the same clothes year after year any more than men and women. Dress your homes in new ideas, new patterns and new colors, and you will not only get these harmonious vibrations, but they will be conveyed to every member of your household, and you will all awaken to a new thrill and a joy in life that you thought was lost and gone forever.

"And, now, to the members of this Association, I offer congratulations. This organization was started less than two years ago with fifteen charter members.

—E. H. ERVIN in *Wallpaper*.

We don't have to tell a lot of painters how good Flint-Like Varnish is—they use it.

For Summer Wallpaper Jobs

you'll find the Bosch sample books best. Our papers are in stock the year round. Having our own factory prevents outs.

Place your orders where you can get goods quickly.

IT'S *SOME* LEAD!

That's what a painter who uses it told us the other day about

HENRY BOSCH CO'S
Strictly Pure White Lead

You'll say so, too, if you'll only give it a chance to show you how good it is.

This lead is made by the well known "Old Dutch process" and is unsurpassed for whiteness, opacity, durability and purity. Every ounce of it is pan-dried before grinding in pure linseed oil and is free from the water which many other brands contain.

OUR GUARANTEE—We will pay the equivalent in gold for every ounce of adulteration it may be found to contain. This guarantee is placed on every package.

Sealerine is a fine thing for painters—page 43.

GOOD NEWS FOR PAINTERS

AN EASY WAY TO TAKE OFF PAINT

THE BURN-IT-OFF Electric Paint Burner is always positive in operation, ready on a minute's notice and economical in operation. High winds, poor gasoline and the thousand other annoyances of the Blow Torch can't bother this burner. You start to work and *keep working.*

Easy to Start—Voltage

Just insert the plug in any lamp socket or wall plug and the Burn-It-Off is ready for use. It takes but a minute for the burner to come to full heat. Don't worry about what current it requires, whether direct or alternating, as it works on either of them with the standard 110 voltage.

Efficient

Six coats of paint may be removed easily as one and *without scorching the wood.* Due to the uniform heat generated any thickness or quality of paint dissolves instantly. The heat may be so accurately directed that door panels may be burned off without blistering the moulding. Efficient? What torch can even approach the efficiency of the BURN-IT-OFF? Starts quickly and without fuss or bother, dissolves the paint at once, and only where wanted.

Durable

The heating coil in the BURN-IT-OFF burner will operate at full efficiency *continuously* for over 90 hours; and it takes but a minute to put in a new coil.

You can do it sitting up on a stage.

Safe

Fire, the fear of the painter using a Blow Torch, is reduced to a minimum with a BURN-IT-OFF, while obnoxious fumes and odors associated with a Blow Torch are eliminated entirely.

Outfit

The BURN-IT-OFF comes complete with 18 feet of cable and an extra heating coil with slip socket plug. This is a double plug that you can screw in on the old style socket or push in on the new style. Attached ready to insert in any socket. And for a while we will also include a special made for the purpose 2½ in. Ridgely Scraper. If you have an unusual distance to reach we supply the cable in 18-foot lengths with plug attached, at $2.25 per section.

Voltage

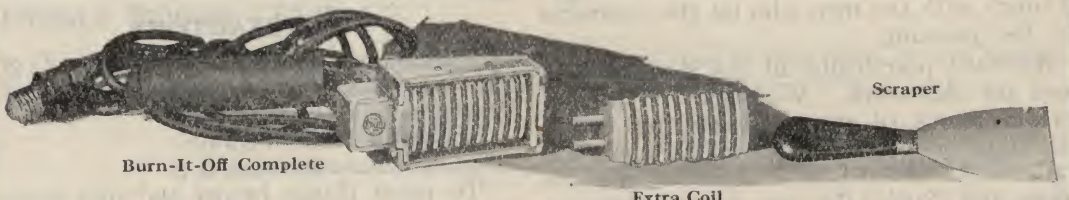

If a 220 voltage is used, we will send a burner for your special case. Always specify if you use this 220 voltage. Otherwise 110 will *always* be shipped.

Prices Net

The Outfit: 1 Burn-it-off, 1 extra coil, 1 scraper	$20.00
Coils only, each	$2.50
Scrapers only, each	.75
Cables only, 18-feet	2.25

The time saved in going after gasoline (say nothing of the cost of it) will make the coil cost nothing.

The Outfit

FOR SALE

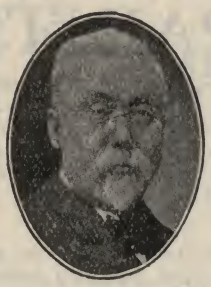

Swing Stage without ropes for $10.00. Three heavy cornice hooks, three iron stirrups, three cross pieces with rollers, three heavy scaffold irons, all the above for ten dollars. A. W. Peterson,
715 Spring St., Geneseo, Ill.

WANTS A NEW LOCATION

A. R. Gough, Petersburg, Ind., eighteen years' experience as a decorator, wants to locate in some town of 1500 to 3000 population. If you know of any opening, please write Mr. Gough.

No Enamel does better work than Premere—and look at the price—page 29

THE BULLETIN

HENRY BOSCH, SR.
1845-1908

A native of Amsterdam, Holland, the founder of this business came to the United States in the early 60's. He immediately sought and acquired full citizenship. After some years of hard work he acquired in 1879, a small wall paper and paint store in Chicago. Here was laid the foundation of the Sample Book business, which rapidly grew to its present magnitude. The erection of a new wall paper factory to sell Decorators direct now promises an era of still greater growth and prosperity. The policies of service, fair dealing and enterprise established by the founder remain today the foundation principles of the business.

June CHICAGO 1925

SCHOOL IS OUT!

The children are glad and the decorator can rejoice also for it gives him in many cases an opportunity to get a nice job. The wear and tear on school houses is heavy and there are few of them that do not need some renovation before the new term begins. Progressive communities do not allow their schools to look shabby—now is the time to get in touch with the men who let the contracts for the painting.

We have practically all the material you need for this work. Wallpaper is used in certain rooms of many schools; for others kalsomine or flat wall paint makes a popular wall finish. Flint-Like Varnish is fine for floors and Rock-Like for the woodwork—both remarkably low priced. Black Board Slating will be found on page 34.

You don't want the seats and desks to be sticky and there is one sure way to prevent it. The use of Dry Hard Seat Finish on page 44 of the bulletin.

Then the window shades. How forlorn a school house looks both from the inside and the outside if the shades are not in good shape. Send us the dimensions and let us estimate on the new shades you need. You will be surprised to find how reasonable our prices are.

We are glad to advise on request the most suitable material or finish for any of this work.

Color cards of paints, stains, and kalsomines, and samples of window shades are in your Home Decoration Book.

THE PARTIAL PAYMENT PLAN FOR HOUSE PAINTING

The increasing popularity of the budget system of apportioning household expenses and the extension of the partial payment method of securing many of the necessities and luxuries of life follows naturally the trend of our present buying system.

Investigation shows that on the average in a community 10% of the people buy for cash, 30% have charge accounts, and about 60% buy on the installment plan.

The majority of homes are bought on the installment plan and it is just as reasonable to paint these homes and keep them in good order on the same plan. For appearance sake, as well as for protection, the home must be painted periodically. The partial payment plan for financing painting contracts is attracting a great deal of attention throughout the country. We have had many inquiries following the reading of the pamphlet recently mailed to painters describing the plan. Where your prospective customers do not feel that they can at one time put the money necessary into painting, you can discuss this plan with them and show them a way where they can brighten up their homes and give them the protection they need and pay for it by easy stages

BENEFACTORS

IF he who makes two blades of grass
to grow where there was one
Unto his fellowmen, indeed,
A helpful deed has done.
Then he whose daily job it is
To paint things bright and new
I really think should be adjudged
A benefactor too.

—Alice Crowell Hoffman, in The American Painter and Decorator.

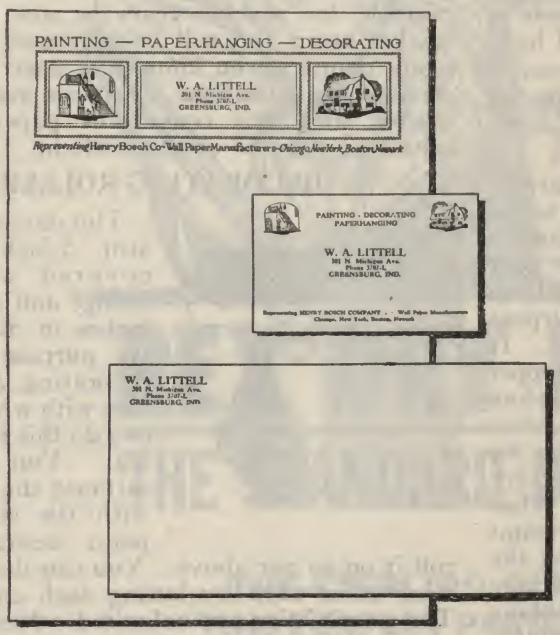

TIME PAYMENTS

Almost Paid For—"I just paid the doctor another ten dollars on his bill."

"Oh, goody two more payments and the baby's ours."—*Saturday Evening Post.*

How Your Customers Judge!

THE kind of stationery you use is an excellent way for your prospective customers to judge the type of work you do. They feel that if they receive an estimate or letter on a neat, artistic letterhead that the painter who sent it will do a good class of work. That is how distinctive stationery can increase your business. And we have made it easy for you to use good stationery by giving you the advantage of large quantity production at actual wholesale cost.

$5.00 net

250 LETTERHEADS attractively designed and printed in two colors on a good quality Bond paper.

250 ENVELOPES printed in one color on paper to match the letterheads.

250 BUSINESS CARDS—a very neat and businesslike card printed in one color on a bristol stock.

Printed with your name, street address, phone number, town and state just as we show at the left.

These 750 pieces of stationery are packed in a substantial cabinet. The cabinet is divided with partitions into three compartments and keeps the stationery in a clean, orderly condition. In order to secure this unusual value in stationery not more than four lines of matter can be used and these four lines will be the same on letterhead, envelope and business card. See illustration. The quantities of each item (250) can not be varied.

HENRY BOSCH COMPANY

Please enter my order for Bosch Stationery Cabinet as described in this folder. Print the stationery with the copy in the space marked below.

(Answer Yes or No)

Something new—Floor Dressing—page 34.

When you have decorating or painting problems maybe we can help you—write us and let's see if we can't. Our Decorator has had long years of experience—has solved many knotty problems and is glad to pass along to our painter friends any of the information he has gained.

WHY VARNISH CREEPS

The creeping of varnish may be brought about by some defect in the wood such as dampness, occasioned by an unnoticed leak.

Plenty of time should be allowed between coats, for if the first coat is not thoroughly dry, the second is kept soft and consequently the third coat is bound to crawl.

Regardless of how good a quality of varnish is selected, a quick change to cold weather in the late fall or winter may chill the varnish so that it becomes too thick for the first coat on raw wood, and then it should be made to flow by thinning with pure spirits of turpentine, but only in the case of the first coat. It is also a good practice to remove the stopper from the new varnish can a few hours before the contents are to be used.

The best preventive of creeping is to see that each coat of varnish is thoroughly dry and hard before another coat is applied. When it does show a tendency to creep on account of the sweating-out of moisture, go over the surface with a moist chamois. This will very often stop it without the necessity of rubbing with pumice and water.—*Dutch Boy Painter.*

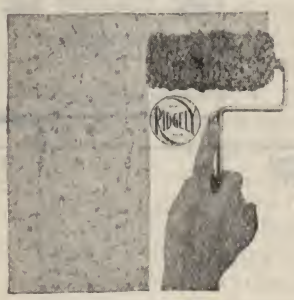

HERE IS A LITTLE JOB

When you are working around a home, arrange to varnish the refrigerator. Your customer will appreciate the results. Even in a well-made refrigerator it is almost impossible to prevent "sweating." It is quite impossible to prevent a difference in temperature between the outside casing and that of the room. Consequently any moisture held in the room atmosphere is bound to condense on the outside of the box. If the refrigerator is kept well finished with varnish or shellac, this moisture is prevented from seeping into the box, causing the panels to warp, seams to open, wood to rot. This condition offers germs an opportunity to develop and causes ice to melt more rapidly.

IT'S BACK AGAIN

Transfer graining paper that was unobtainable for several years is now on the market again and will be welcomed by the many painters who know how easy it is to produce fine imitations of various woods and marble with this convenient paper. For prices see page 55 of this bulletin.

DECORATING ROLLER

This device is side arm 5-inch roller covered with a sponge and about 2 inches in diameter. Its purpose is for decorating, and the ease with which you can do this is amazing. You simply saturate the sponge with the shade of paint desired and roll it on as per above. You can do two or more color work by letting each coat dry. The possibilities are unlimited. New white plastered walls make a fine ground or if walls are already painted use them. Once you try this roller out goes stencils, stipplers, panels, etc., as you can almost do a room while you are getting ready with them. The side arm feature is a big thing as you get right up to corners and no time lost with touching up with a brush or piece of sponge which generally shows a patch job anyhow no matter how well done. Full directions for use with every roller. Weight, 6 oz.

Price, each ..... Net **$1.25**

He had been looking over the Christmas cards on the counter for some time when the saleswoman suggested: "Here's a lovely sentiment: 'To the Only Girl I Ever Loved.'"

"That's fine," he said, brightening. "I'll take five, no, six of those, please."—Exchange.

THE EASY WAY TO ORDER: If you see a pattern you like in the Magazines, cut it out, send it to us, see what we can do for you. We have a booklet "How to Care for Linoleum Floors." Yours for the asking.

Above prices subject to discount. See page 13.

The Best Way to Install Linoleum

is to cement it permanently in place over a lining of Deadening felt. The Paperhanger is the logical mechanic to do this work. He simply hangs Felt and Linoleum to the floor as he would hang some heavy material like Lin-O-Wall to a wall. There are 10 advantages at least of laying by this method. These are set forth in our Booklet "The Bosch method of laying Permanent Linoleum Floors" free for the asking.

MATERIALS NEEDED

PEERLESS LINOLEUM PASTE. A Powder, mix with hot water. Order 1 lb. for every 2 square yards of Linoleum used. Sold in bulk. Price per lb. 9c. net.

ARMSTRONG'S LINOLEUM PASTE. Ready mixed to proper consistency. Water resistent (not waterproof). One gallon will cover 100 square feet, price in five gallon containers $1.10 per gallon net, in 1 gallon cans $1.25 per gal. net.

WATERPROOF LINOLEUM CEMENT. Consistency of rubber cement used to waterproof seams in Linoleum. Solvent denatured alcohol. One Gallon has a spreading capacity of from 60 to 80 square feet. Figure to use one quart to 12 sq. yds. Linoleum, 2 yards wide. Price 1 gallon can $2.85 net. 1 Quart can 80c. net.

BIRD'S LINING FELT. One yard wide, weight 1½ lbs. to yard. Sold in rolls containing 50 square yards. Price per roll $7.50 net. In less than roll 16c. per yard net.

BRASS LINOLEUM BINDING—Turned edge for doorways ½" wide. Price per yard 18c net.

Tools for the Linoleum Layer

Improved three-piece roller, weight 150 lbs., each $32.00 net.

Galvanized Iron & Rubber Paste Spreader, each $1.50 net.

Linoleum knife, curved blade, each 65c. net.

Care of Linoleum

A good rule: Never use cleaning powders or a strong scouring soap. Always varnish Printed Linoleum and wax Inlaid Linoleum. Here is what you need to prepare the surface:

FLAXSEED SOAP—Absolutely pure linseed oil soft soap. Directions for use on cans. 1 lb. cans 25c net, 5 lb. cans 22c. net per lb.

POLISHING WAX—See page 35.

LINOLEUM VARNISH—See page 44.

If you have a prospective customer for linoleum, send us measurements of floor to be covered. Let us help you submit figures, samples, prices, everything you need to land the job.

DROP CLOTHS

NEATLY DONE UP

You'll like this way of getting drop cloths—each one packed neatly in a box. They are such good quality—such good value, too. It's inconvenient not to have enough drop cloths—order now for the painting season.

PAINT-UP AND BRIGHTEN-UP, TOO

The use of some of the new shades for trim in house painting makes possible a distinct and colorful note. Modern houses, especially the small and medium sized ones, are being painted in new combinations that are not only attractive but create a bright and interesting note in the landscape.

Just try trimming a white bungalow or cottage with No. 506 Lettuce Green on the Henry Bosch color card. Paint the sash and cornice this color and the blinds, too, if the house has them, and many of the new houses do. Or use 518 Ocean Blue as a trim. This 518 goes wonderfully well, too, with ivory or tan walls.

Especially in foliage surroundings do these brightly trimmed houses show up most attractively.

Bookstall Humor.—She hurried into the shop as though she had not a moment to spare.

"I want a book for my husband," she said. "It's his birthday to-morrow, and I want to give it to him as a present. Show me what you have, please," she continued, without pausing to take breath. "Nothing too expensive, mind—I don't want anything too cheap either. He's not very fond of sport, so don't show me anything in that line. For goodness sake don't offer me any of those trashy novels, and, no matter how much you try to persuade me, I don't want anything in the way of history or biography. Come, now, I'm in a dreadful hurry. I've already wasted too much time here."

"Yes, madam," replied the assistant, as he picked up a little red-bound book. "Here's an excellent volume entitled, 'How to Manage a Loud Speaker'."—*Tit-Bits.*

Get solid with your farmer customers—use Henry Bosch Co's. Best Barn Paint

SUMMER IS THE BEST TIME

The next few months will be found most favorable for the decorating of churches. The decorator himself is not so hurried, some churches take a summer vacation, and the weather permits the opening of doors and windows to give a good circulation of air for drying. It has happened many times that both the wall paper and the varnish on pews has not dried satisfactorily because the building had to be kept closed on account of the temperature.

Summer is a popular time, too, for doing work in lodge rooms and public halls.

Our decorator, through many years of experience, has accumulated a lot of ideas for church and lodge work. Let him help you make attractive jobs.

WALL PAPER FOR HOTELS

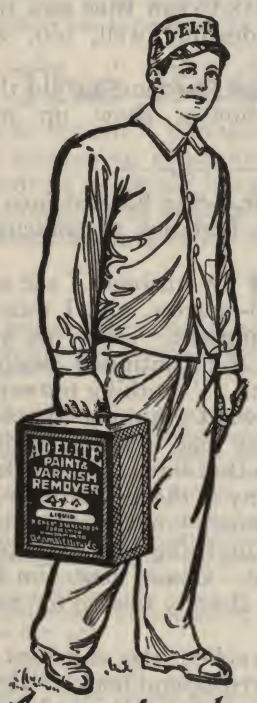

A large proportion of the hotels today are using wallpaper. It has many advantages, such as a hospitable and comfortable appearance, less expense than painting, and lower cost of upkeep. It will help you in selling paper to your local hotel men to have a copy of "Modern Hotel Decorations" published by the Wall Paper Guild. Write to them at 461 Eighth Ave., New York. This little book, printed in colors, describes and illustrates the decorations of the new Hotel Roosevelt, Hotel Commodore, and many other famous hotels.

THE HOME DECORATION BOOK

You don't need to bother with separate color cards of paints, stains, kalsomines, etc., samples of window shades, if you use the Home Decoration Book. Here you have them bound up in such convenient and attractive form that they show to better advantage when displayed to your customers, and the chances are that every home owner will find something else of interest in this handsome book. Take it with you on every job.

THE SPECIAL BOOK

Many decorators need the special book in the summer more than any other time. A great deal of good work often comes in after the spring rush is over. The Bosch special book will be gladly sent to those who need it and arrangements can be made to keep it through the season if necessary.

An easy day ahead

AD-EL-ITE

TRADE-MARK REGISTERED

Paint and Varnish Remover

Ad-el-ite Paint and Varnish Remover is the **Original.** It has more energy per gallon than any similar material.

It is the easiest, quickest and most effective way of removing old coats of hard paint, varnish, wax, shellac or enamel, and leaves the surface in perfect condition for refinishing.

It never makes a compromise—finishes the hardest work up right.

The time you consume in the old-fashioned method is wasted.

Ad-el-ite works like magic. Sample **Free.**

Note.—No. 68 and No. 69 are made of two members. All others are one piece.

Note.—Remember that in buying any of our Unfinished Bass Mouldings, you are paying only for absolutely perfect stock. The lumber is the best quality clear kiln dried stock and every length is carefully sanded and inspected. You do not have any sanding to do and a saving of time is effected and a first class job assured.

37-M	2-inch Unfinished Select Bass	.06½c

Our Plain Bass Moulding and Coves Require no Sanding

Window Shade Department

Instructions for Ordering and Giving Measurements

WE show the two different ways of hanging made-to-order Shades and we take your width in measurement on Shades to be extreme tip end to tip end of rollers, unless you specify otherwise. That means that the cloth must be cut narrower. For example, roller measuring 36 inches wide tip to tip, cloth would be cut 34½ inches wide, using outside brackets. If shades are to hang on inside brackets between the jambs, we just cut cloth 1 inch narrower than roller. Measure each window separate.

For length of shade give measure from where the bracket is to be placed to the sill. On made to order shade WE MAKE ALL ALLOWANCES FOR HEMMING AND MOUNTING ON ROLLERS.

SHADES MADE TO ORDER IN SPECIAL SIZES

FOR ORDINARY STOCK SHADES SEE PAGE 22

ALL shades listed on this page are of the best quality. With these quotations you can meet any competition upon material of equal quality. Special prices furnished on large orders for Victor, Victor Duplex, Luxor, or Holland. Send list of sizes and we will submit prompt estimate with samples.

SAMPLE BOOKS and ORDER BLANKS on request.

Our **VICTOR, VICTOR DUPLEX** and **LUXON CLOTH** are strictly hand made cloth covered with the best of pigment and linseed oil. They will not *fade, wrinkle* or *shrink*. All made to order shades are mounted on *Hartshorn Rollers* including slats and fixtures.

Our Guaranty: You Are Satisfied or Your Money Refunded

WHITE LEADS, OILS, ETC.

Henry Bosch's Co.'s Strictly Pure Lead

Henry Bosch Co.'s Strictly Pure White Lead contains nothing but strictly pure basic carbonate of lead and absolutely pure refined linseed oil. This lead is made by the well known "Old Dutch process" and is unsurpassed for whiteness, opacity, durability and purity. Every ounce of it is pan-dried before grinding in pure linseed oil and is free from the water which many other brands contain.

OUR GUARANTEE—We will pay the equivalent in gold for every ounce of adulteration it may be found to contain. This guarantee is placed on every package.

	Net Per Lb.
In 100-lb. kegs	$0.15
In 50- and 25-lb. kegs	.15¼

Our Paint Department

Our own practical experience in the use of Paints, Colors, etc., guides us in selecting the large and complete stock we carry. Read the Price Current pages of this department and you can readily make time and money-saving selections.

Henry Bosch's Co.'s Prepared Paint
For Interior and Exterior Use

This brand has held the place of honor for many years. Every ounce of Lead, Zinc, Oil, Japan employed in the making of this paint is of the highest grade, as determined by critical analysis, so also are the pigments and other ingredients.

Under average conditions one gallong of this paint will cover with two coat of full strength, about three hundred square feet of surface. Color card on request.

We guarantee this paint to be composed only of materials, properly combined, which produce a paint that works smoothly and possesses durability, permanency of color, and is handsome in appearance, and when properly applied will not chalk, crack, scale or peel off.

PRICES NEVER MET FOR QUALITY

Five-Gallon buckets	Per Gallon,	$5.70

Henry Bosch Co.'s Storm-proof House Paint
For Interior or Exterior Use

For quality and price there is nothing better made. The pigments are combined with pure white lead, linseed oil and other ingredients. Where applied according to directions will always give the very best of results. One gallon will cover from 250 to 300 square feet. Sample card mailed on application.

We guarantee our Storm-Proof Paint to be composed only of materials, properly combined, which produce a paint that works smoothly and possesses durability and permanency of color.

Five-gallon buckets	Per Gallon,	$4.10

No. 243— $1.80 per gal. added to above prices.

Henry Bosch Co.'s Flat Wall Paint
For Interior Use Only

Our flat Wall paint can be applied with an ordinary brush, flowing easily and presenting a smooth, uniform surface, without brush marks or laps and with no necessity for stippling.

The covering capacity is 600 square feet to the gallon for one coat work, and as one coat will generally suffice for dark surfaces, it is most economical.

Can be used upon hard finish walls and also upon woodwork. It can be applied over old paint with entirely satisfactory results. An excellent paint for undercoats for all interior enamel work.

Especially suitable for bedrooms, hotels, schoolrooms, or hospitals. Send for color card.

White and various colors.

Five-gallon cans	Per Gallon,	$4.90
One-gallon cans	Per Gallon,	5.00
Half-gallon cans	Each,	2.60
Quarter-gallon cans	Each,	1.40

Henry Bosch Co.'s Concrete Paint

Especially prepared to meet the demands for a coating giving protection and a beautiful appearance to cement, concrete, stucco and brick buildings, residences, warehouses, etc. It is rainproof, sealing the pores of brick, cement or stucco surfaces. Prevents dampness from forcing the coater off, and leaving the surface with a rough, spotted appearance. Walls that have a tendency to gather dampness are very unhealthful and are colder in winter and hotter in summer. It is also oil, gas, grease, acid, steam and stain proof. We recommend its use on floors of hospitals, schools, and public buildings, as it prevents the cement dust from accumulating, making it easy to keep floors clean. The average covering capacity is 100 square feet, two coats. If too thick reduce it with our cement reducer.

Made in various colors. Color card on application.

Five-gallon cans	Per Gallon,	$5.70
One-gallon cans	Per Gallon,	5.80
Half-gallon cans	Each,	3.10
Quarter-gallon cans	Each,	1.70

Cement Reducer

Cement paint should always be reduced about 25% before applying the first coat.

One gallon cans	$4.00
One half-gallon cans	2.20
Quarter-gallon cans	1.20

Use Flint-Like Floor Varnish and Save Money

Henry Bosch Co.'s Hard Wearing Floor Paint

Spreads well, dries quickly, and a floor paint that is tough, elastic and durable

You will find it entirely fitted to this severe exposure and wear, a comfort to look at, and a pleasure to use. In lasting quality it is excelled by no other floor paint now upon the market. Offered in several colors. Color card on application.

One-gallon cans	Per Gallon,	$5.00
Half-gallon cans	Each,	2.60
Quarter-gallon cans	Each,	1.40

Henry Bosch Co.'s Porch Floor Paint

No paint is subjected to more severe treatment than that used upon porches, steps, boat decks, etc. Is especially prepared for outside use and will resist exposure to the elements better than any other preparation of its kind, nor is it affected by foot-wear, cleaning or scrubbing.

Color card on request.

Five-gallon cans	Per Gallon,	$5.70
One-gallon cans	Per Gallon,	5.80
Half-gallons cans	Each,	3.10
Quarter-gallon cans	Each,	1.70

Henry Bosch Co.'s Best Barn and Roof Paint

This new brand of barn and roof paint is offered and is especially prepared to meet the demands for a paint that can be used on rough or exposed surfaces such as Barns, Roofs, etc., without fear of its cracking or blistering and resists the deteriorating effects of heat, cold and rain.

It is composed of finely ground pigments and pure linseed oil which enables it to withstand the weather far better than the average grade of barn paint.

Color card on request.

One-gallon cans	Per Gallon,	$4.30
Five-gallon buckets	Per Gallon,	4.20
Half barrels	Per Gallon,	4.10
Barrels	Per Gallon,	4.00

Henry Bosch Co.'s Durable Barn and Roof Paint

An economical and serviceable paint that can be used on exposed or rough surfaces, such as barns, roofs, bridges, etc., where durability and a low price is desired. Color card on application.

One-gallon cans	Per Gallon,	$2.70
Five-gallon buckets	Per Gallon,	2.60
Half barrels	Per Gallon,	2.50

Henry Bosch Co.'s Premere Enamel

The highest grade of enamel that can be made and is the permanent finish for Homes, Hotels, Hospitals, etc. In working on large surfaces it will go on without showing laps, as it flows out with perfect freedom and is easy to put on. It is permanent, beautiful in finish and will withstand the hardest kind of paint wear or abuse without injury. It will dry hard in about twelve hours. Where cleanliness and hygienic conditions are essential Premere is incomparable. As it positively will not crack or blister and gives a firm sanitary porcelain-like surface which provides no lodgment for dust or germs and can be washed without slightest injury—made in white, ivory or silver gray and can be furnished in either gloss or eggshell finish.

One-gallon cans	Per Gallon,	$9.50
Half-gallon cans	Each,	4.90
Quart cans	Each,	2.60
Pint cans	Each,	1.40

Henry Bosch Co.'s Enamel-ite

An enamel for inside walls, ceilings and inside woodwork where a high glossy finish is desired.

Allow twenty-four hours between coats. Enamel-ite dries free from dust and tack in from six to eight hours. It can be rubbed in forty-eight hours. A perfect decorative enamel finish white only. Be sure and follow directions on can.

One-gallon cans	Each,	$7.00
Half-gallon cans	Each,	3.60
Quarter-gallon cans	Each,	1.90

Henry Bosch Co.'s Dependon Enamel

This durable enamel is prepared ready for use. One coat makes a handsome finish which may be washed as often as desired, without injuring the finish. It dries in from eight to ten hours. Made in white only.

1-gallon cans	Per Gallon,	$5.50
Half-gallon cans	Each,	2.90
Quarter-gallon cans	Each,	1.60

Henry Bosch Co's Enamel Undercoater

This material is an especially prepared first coating for use under Enamel. Best results are thus always obtained as the undercoater adheres to the metal ceilings, brick, plaster, concrete and other porous surfaces, and makes an unusual foundation for the gloss white.

One-gallons cans	Each, $6.00	Quart cans	Each, $1.80
Half-gallon cans	Each, 3.20	Pint cans	Each, 1.00

Arkiteck Paramount White
A Semi-Paste Gloss Paint

This Paint contains an entirely new pigment which is the most opaque in existence; and being furnished in semi-paste form, can either be left heavy so as to secure the utmost hiding power, or else thinned so as to spread further per gallon.

It is non-poisonous, does not drag or pull like ordinary paint and stays white and can be reduced gallon per Gallon, as per directions on can. When reduced, one gallon will cover from 650 to 700 square feet.

5 Gallon Cans ..... Per Gallon, **$9.40**
1 Gallon Cans ..... Each, **10.00**

Less 10% in 25 Gallon Quantities

Hueskote
Made in a Gloss or Flat Finish

Hueskote Gloss Finish and Hueskote Flat Finish have such wonderful covering and spreading qualities that they will with one coat cover surfaces which ordinarily require two coats of lead and oil, covering from 600 to 900 square feet to the gallon.

Can be furnished in white and in colors, for all inside and outside use, for wall, metal, wood, etc., in fact for all purposes a paint is or may be used for. Be sure and follow directions on can. Color card upon request.

Gloss Finish and Flat Finish same price.

Five-gallon steel kits ..... Per Gallon, **$6.90**
One-gallon cans ..... Each, **7.00**
Half-gallon cans ..... Each, **3.60**
Quarter-gallon cans ..... Each, **1.90**

Note—Be sure and specify the kind wanted.

Polar White

Polar White is a paste paint that can be thinned at the rate of 1½ gallons of reducer to the gallon of paste paint. The principal pigment used is Titanox which during its course of developments has had over 10 years exposure tests in almost every state in the union.

It covers better and covers a third more surface to the gallon ("after" thinning) than a paint made from a keg lead base.

5 gallon steel kits, per gallon **$7.50**
1 gallon cans ..... Each **7.70**

Koverflor

A liquid floor covering for outside and inside floors of wood or cement.

Being oilproof and waterproof, it is especially recommended for use on cement floors of porches, garages, factories, hotels, hospitals, schools. Exceptionally good for floors of railroad and street railway cars, steamship and boat decks, floors of engine rooms, floors of electric power plants, and for linoleum. Color card on request.

Gallon can ..... Each, **$8.00**
Half-gallon can ..... " **4.20**
Quarter-gallon can ..... " **2.20**

Zinc-O-Lith

Zinc-O-Lith is a better white paint both for the painter and for the owner, because of its high quality, low price, and extra covering capacity—350 square feet, two coats, to the gallon.

Zinc-O-Lith flows easily, levels out perfectly and produces a smooth, pure white surface that will not crack or chip and will wear for years under severe weather exposure.

Made in white only. Can be tinted to any shade with colors in oil.

Five-gallon buckets ..... per gallon, **$5.90**
One-gallon pails ..... each, **6.00**
Hald-gallon cans ..... each, **3.20**
Quart Cans ..... each, **1.70**

"Ripolin" White Enamel

The features of Ripolin are its ease of brushing out, full flowing and leveling properties unequalled density or hiding power, great covering or spreading capacity. (Approximately 600 to 700 square feet per gallon dependent upon the surface.)

It has extreme durability and may be used on exteriors and interiors of buildings, on ships and yachts, on railway coaches, on automobiles on all surfaces of wood, plaster, metal, concrete or stone—it will give eminently satisfactory results.

Gallon can ..... Each, **$12.70** Quart can ..... Each, **$3.70**
Half-gallon can ..... Each, **6.70** Pint can ..... Each, **1.90**

Batik Enamel

Batik will lend new beauty and usefulness to bedrooms and nursery furniture, porch and lawn furniture, wicker ware, odd tables and chairs, boxes, chests, clothes hangers, desks, waste baskets, radiators, panel walls and fixtures to harmonize with a general color scheme. Batik may be deepened in tone with black, or rendered lighter with white or altered by mixing with another shade.

Made in various beautiful shades. Color Card on application.

Henry Bosch Co.'s Dura-Verde

A Durable Painting Green

Dura-Verde when thinned down with linseed oil and turpentine will make a paint can't be surpassed for painting doors, window blinds, structural and ornamental ironwork, store fronts and fences.

The average proportion when mixing with oil is eight pounds of green to one gallon of liquid. Dura-Verde looks better, spreads farther and lasts longer than any green on the market sold for similar purposes. Made in Light, Medium, Dark and Olive.

	Per lb.
25-lb. pails	$0.46

Regal Liquid Wood Filler

For Filling Pine, Cherry, Birch, Maple, Poplar, Cedar, Red Wood, and all close-grained woods

It fills the pores completely, leaving a hard and smooth surface for varnish.

It is applied the same as shellac or varnish and requires no sand papering or rubbing off.

On open grained wood a paste filler should be first applied.

Five-gallon cans	Per Gallon, $3.70
One-gallon cans	Per Gallon, 3.80
Half-gallon cans	Each, 2.00
Quarts	Each, 1.10

Shellacite

A Liquid Wood Filler for first coating on close grained, soft interior woodwork — kitchens, bathrooms and floors excepted. A good wood sealer for use where an exceptional finish at a low cost must be obtained.

Five-gallon cans	Per Gallon, $2.90
One-gallon cans	Each, 3.00
Half-gallon cans	Each, 1.60
One-quart cans	Each, .90

Henry Bosch Co.'s Paste Wood Filler

A permanent paste wood filler that works easy and cannot be excelled. For open or coarse grained woods. Fills the grain solid, does not show white in the wood, sandpapers smooth, rubs easily, and holds out the varnish perfectly. In natural oak, red oak, antique oak, walnut or mahogany.

	Per lb.
In 100-lb. kegs	$0.26
In 12½ or 25-lb. pails	.28
In 5-lb. cans	.32
1 and 2-lb. cans	.34

Dutch Boy Flatting Oil

It is a pure vegetable oil containing no wax. When properly mixed with pure White Lead it produces a beautiful, velvety flat, durable, washable finish. No charge for containers.

	Per Gal.
5-gallon cans	$2.70
6 1-gallon cans	2.60
1-gallon cans	2.90

Dustless Floor Oil

A special oil that is used for floors in stores, offices, etc. All dust deposited upon it becomes lifeless—too heavy to float in the air, while it does not adhere to the floor, and is removed readily with a stiff broom.

	Per Gal.
One-Gallon cans	$2.00
Five and ten-gallon cans	1.90
Barrels and half-barrels	1.70

Galvanized Iron Primer

A primer for use on galvanized iron. It is specially recommended for this class of work because it makes a suitable ground for subsequent coats.

One-gallon cans	$7.00
Half-gallon cans	3.70
Quarter-gallon cans	2.00

Ad-el-ite Paint and Varnish Remover

You can never fully appreciate the merits of this wonder worker until you have put it to the test. Its peculiar penetrating qualities enable it to eat down through any number of old coats of hard paint, varnish or shellac, leaving the surface in a condition where it can easily be removed with a scraper. It will not injure the finest veneer, your hands or your clothing.

Gallons	Each,	$3.60
Half gallons	Each,	2.10
Quarts	Each,	1.20
Pints	Each.	.70

Trinex Paint and Varnish Remover

A harmless crystalline chemical powder which is odorless and harmless and will not burn the hands or discolor wood. It not only will remove paint and varnish from floors quickly, but can also be used when dissolved in water as a wall paper remover. Also an excellent cleaner for brushes. Directions on package.

½ lb. package	Each,	$0.70
1 lb. package	Each,	1.20
1 lb. Pkgs., per doz		$13.00
1 lb. Pkgs., per case (3 doz.)		36.50

Floor Dressing

After many years of experimenting we have succeeded in producing the coveted Floor Dressing and we are confident that this will fill the long felt want. This Floor Dressing is the most desirable finish for floors exposed to hard usage. This is not a varnish, although two coats of the Floor Dressing will produce a more durable and elastic surface than varnish. It may be used for hard and soft floors; it also may be used as a reviver over varnished floors, woodwork and furniture. It may be applied with woolen rag or brush. It dries hard over night and will not darken the floor, and the second coat may be applied after 48 hours.

	Each
One gallon cans	$2.70
Half gallon cans	1.50
Quarter gallon cans	.90

Screen Enamel

An enamel adapted for painting new and old screens. Preserves the wire, is easily applied. Black and Green.

Gallon cans	Each,	$4.00
Half-gallon cans	Each,	2.20
Quart cans	Each,	1.20
Pint cans	Each,	.70
½ Pints	Each,	.50

Green, add 50c per gallon to above prices.

Blackboard Slating

One gallon will cover about 250 square feet, three coats. Dries hard in 24 hours. Made in Black and Green.

One-gallon cans	Per Gallon,	$6.00
Quart cans	Each,	1.70

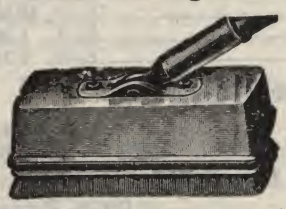

Henry Bosch Co.'s Transparent Prepared Wax

This is the most popular wax on the market and there is no equal to it as a polish for floors, furniture, pianos or automobiles. It will cover 20 per cent more surface to the pound than any other floor wax. It is not brittle, will neither scratch nor deface like shellac or varnish, and is not soft and sticky like beeswax. It contains the good qualities of both, and is, therefore, particularly adapted to give perfect results over varnish or shellac.

1, 2, 4 and 8-lb. cans.....Per lb. **$0.80**

Floor Waxing and Polishing Brushes

Iron weighted, with felt protected edges and sides. A superior brush for waxing and polishing wood-carpeted, inlaid and hard-wood floors. These brushes are made of the strongest and the best stock, and will not mat down by either weight or service.

Rex Dry Paste

Rex dry paste has stood the acid test of many years service. It is manufactured from the finest of materials, and easy to mix. Snowy whiteness, creamy smoothness, nonstaining, slow drying, high water absorption and strong adhesiveness are a few of the many qualities that make "REX" the ideal paste. Discriminating users demand it for perfect results.

100-pound kegs	"	31.50

Stic-Rite Cold Water (Dry) Paste

Is a cold water paste in powder form for paper hangers' use.

It is perfectly white. It readily absorbs the water free from lumps, and makes a most perfect paste far superior to any of the cooked or ready-made pastes. It never separates, always remaining the same. It does not form a crust or skin on top. It can be used in the place of gums, glues or dextrine. Its relative cost is much less than any other paste. One barrel of Stic-Rite will make about seven barrels of ready-to-use paste. 2½ pounds will make enough paste for an ordinary size room. It saves 80 per cent of freight.

	Per lb.
Barrels, containing about 200 pounds	$0.16

Paper Hangers' (Wet) Paste

Clean and strongly adhesive, always ready for use by thinning with cold water.

	Each
Barrels, about 215 lbs.	$9.00
Half barrels, about 135 lbs.	6.00

Grip-Tite Paper-Hangers' Sizing

It is the best Size on the Market and sold the most reasonable. It saves money all around. When mixed with water and ready for use it cost about 25c per gallon and cannot be surpassed for results.

It is a semi-jelly substance and should be mixed one part of size to three parts hot water to overcome all trouble. It turns all hot spots encountered immediately a pink color so you can go over these spots with Shellac and be sure of efficient work and first class results.

The lime and hot spots on the wall should be first taken care of before wall paper is applied.

	Each
1 gallon cans	$2.40
½ gallon cans, each	1.40
¼ gallon cans, each	.80
⅛ gallon cans	.50

Case lots (12 gallons) 10% from net prices.

Sisk's Paper Hangers' Sizing

A satisfactory sizing for painted, kalsomined or lime-washed walls and ceilings, and something which can be relied on and which needs no scraping or washing to prepare the surface.

It works easy and dries quick, therefore a surface can be prepared sooner by the use of Sisk's Paper-Hanger's Patent Sizing than by any size or method on the market.

Add 1 gallon of sizing to 3 gallons of hot water, which will make size enough to prepare twelve rooms.

	Each
Pint cans	$0.60
Quart cans	1.00
½-gallon cans	1.80
1-gallon cans	3.20

Hygienic Kalsomine

Hygienic Kalsomine is made ready, by simply adding boiling water. (Must be boiling.) Affords maximum values in quality, economy, covering capacity, and works easily. Contains a well known, odorless disinfectant which germ-proofs walls. Eliminates waste.

One pound, if properly mixed and applied, will cover approximately 100 square feet. Does not show laps or brush marks, and will not check, peel or blister.

Colors run uniform and come in a great variety of rich, lasting shades. Send for color card.

"Pure White" is what its name implies—a perfect pure white.

White for Tinting contains no blue, and is made for decorators and painters who wish to make their own tints

Munns Wall Size

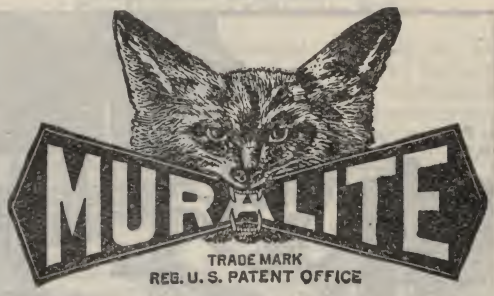

This size is a neutralizer for lime and alkaline salts in walls, holds back saltpeter and stops suction. It will kill stains of almost any and every description, such as water stains, mineral, oil stains, tar and creosote.

It can be used as a primer or first coater on any safe surface before applying oil paint of any description, or as a size under kalsomine or wall paper, and as a wood filler and wood stain superior to any other wood filler, wood stain or shellac. One package will make enough size for a whole room.

Put up in 1-lb. packages, 12 packages to a case.

1-lb. package, each	$0.80
12 1-lb packages, (1 case)	7.50

Muralite Kalsomine

MURALITE prevents all trouble and is so practical that no enterprising man can afford to use anything else. **Muralite** is made by calcimine experts. It is made right. It will meet the requirements of every job and will save money. It is not an experiment, but a thoroughly demonstrated success. Hundreds of the most exacting painters in the Country have used it for years and consider it their standard. Color card on request.

Weatherproof Shingle Stain

An absolutely infallible preservative for Shingles, Clap boards or other Exterior Woodwork. Deeply penetrating. Perfectly weatherproof and made in a variety of modern tones of unparalleled richness.

Weatherproof Shingle Stain being composed of pure colors, pure linseed oil, and the highest grade of wood preservative, will prevent decay, resist the attacks of insect life and prolong the durability of such wood as it may be used upon to a far greater extent than any other tint or stain now offered for sale.

Shingles being dipped for two-thirds of their length (that is as far as necessary), will require from 2½ to 2¾ gallons to the thousand shingles.

If the stain is applied by brush, after the undipped shingles are laid, one gallon will cover 100 square feet, two coats—it would be unsafe to depend upon one coat work.

In some cases a brush coat is applied in addition to dipping, 3½ gallons being sufficient for dipping and brush coat on 1000 shingles after they are laid.

Samples of wood treated with Weatherproof Shingle Stain will be mailed upon request.

Houston's Rock Hard Water Putty

The best preparation of its kind on the market for filling cracks, crevices, joints, holes in floors, supplying missing parts to carved wood; in fact, anything and everything that putty can be used for. Mix a small quantity of Houston's Rock Hard Water Putty with enough water to make it pliable, then fill cracks, crevices or holes, pressing firmly to the bottom and smoothing with putty knife. It dries as hard as rock. So simple a child can do the work.

Pyramid Wall Size or First Coater

Pyramid Wall Size is a chemical compound, milky white in appearance, liquid in form, and ready for use. When applied it chemically becomes a part of the wall and will not peel off. It neutralizes alkali in the plaster, stops capillary attraction and gives a perfect base for calcimine, wall paper, canvas, paint or other interior decorations. It should be used also as a first coater on outside work, on cement coated houses, brick and stone. It will dampproof the wall, stop disintegration and yet leave the voids open so that the paint will not peel off.

Apex Wood Fibre Plaster
The Best Plaster for Patch Work

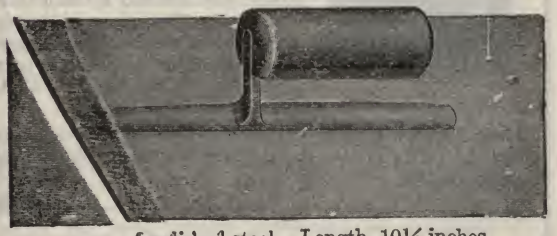

This plaster is manufactured upon scientific principles and possesses a high degree of tensile strength—the first requisite for successful work.

It is ground exceedingly fine and may be depended upon for uniform excellence in both spreading and working qualities.

For use upon lath of wood or metal, or upon any work where a "bond" is required to hold the plaster together while being applied, the Apex Wood Fibre Plaster will give perfect satisfaction. Ready for use with the addition of water.

Vitra-Lastic
The Universal-Gilsonite Paint

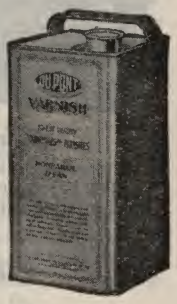

Designed not only to meet the demand for a high-grade Roofing Paint, but it being one of the most perfect general purpose outdoor paints that science and the best of materials could produce, the various uses have increased until it is now used for scores of purposes.

"It is particularly serviceabl for painting Silos, Bridges, Fences, Buildings, Farm Machinery and in fact any surface exposed to the elements where a maximum protection is wanted at a minimum cost.

"One coat acts like a rubber blanket which keeps out all the moisture, thus making the surface absolutely waterproof."

Wau-Kon Floor Varnish

Made expressly for use on new or old floors or on linoleum. Specially selected for ease of application, high gloss, remarkable drying and elastic qualities, and its resistence to all marks from heels.

It dries dust free in about 8 hours, with a tough, wear-resisting gloss; can be walked on the next day.

Per gallon.....$5.50

Hard Wearing Floor Finish

Is especially adapted for finishing floors, hardwood or painted; is very tough and elastic, will stand repeated washing and will not turn white.

Per gallon.....$5.00

Premere Floor Finish

A very fine Varnish for floors, especially made to withstand the hard usage to which a floor is subjected. It is elastic and easy working, yet tough and durable. Is not affected by water and will not mar or scratch white. Dries free from dust in four or five hours and hard over night. Can be rubbed to a dull finish.

Per gallon.....$5.30

Pale Cabinet

Is especially adapted for inside finishing and can be rubbed and polished with very little effort, as the goods dry quickly and hard and are elastic.

Per Gallon.....$5.00

Linoleum Finish

An elastic, durable, and pale transparent varnish for preserving linoleum and oil cloth. It is easily applied with an ordinary varnish brush, and dries over night.

Per gallon.....$6.00

Spar Preservative

An extremely durable varnish, made especially for front doors, store fronts, bath rooms, and all purposes where great durability and elasticity are required. Dries in 4 to 6 hours, and hard in 36 hours.

Per gallon.....$6.50

Mar-Proof Finish

The All Purpose Varnish, suitable for floors, trim, bar or table tops, furniture and all other interior uses.

Crystalline gloss, rubber-like elasticity, granitic hardness, unequalled for rubbing, highest durability. Proof against ordinary injury; not affected by moisture; withstands the action of oiling, soapy water, alcohol or ammonia. "Dust" trouble is reduced to a minimum. Dust dry in TWO HOURS; can be walked upon in SIX HOURS.

Mar-Proof will yield more satisfactory service than any varnish you have ever used. Sold under our unqualified guarantee.

Per gallon.....$6.50

Premere Interior Finish

A very fine interior Varnish that produces a high gloss and is also adapted for rubbing and polishing. It is heavy bodied, easy working, sets free from dust in 4 hours and can be rubbed with pumice stone and oil or water in 3 days.

Per gallon.....$4.70

Imperial Wood Finish (Interior)

Best varnish made for high-grade interior finishing. Is pale in color and can be used on the finest and most delicately grained woods, and produces a high and lasting gloss which does not easily mar or scratch. Will not pull under the brush and flows out smoothly. Dries dust free in 6 hours and hard in 18 hours. Can be rubbed in 48 hours and polished if desired.

Per gallon.....$5.00

Premere Flat Finish

Dries and hardens quickly with a rubbed effect finish. Can be used on floors, and resists all destructive elements to a remarkable degree. For new work use two coats; for old work use one.

Per gallon.....$6.50

Dry Hard Seat Finish

A varnish suitable for church and school furniture and similar work. It dries out of dust in four hours, hard in 36 hours and can be rubbed.

Per gallon.....$7.00

Henry Bosch Co.'s Fine Varnishes

For half-gallon cans add 20 cents per gallon net

Flint-Like Floor Varnish

A thoroughly reliable varnish specially prepared for resisting the hardest wear. It can be used with equally good results upon old or new work; sets with a high gloss and its flint-like quality renders it proof against furniture or heel marks, or any other ordinary injury.

The elasticity of this varnish is a strong recommendation, it does not water stain or mar and can be depended upon to give entire satisfaction.

In Flint-like are combined all the essential features necessary for the making of a dependable varnish.

Dries quickly, dust proof in six hours, dry and hard for use in sixteen hours. When ordering be sure and specify size of cans desired.

Bbls. and half bbls.....Per Gallon, **$3.30**
One and five-gallon cans.....Per Gallon, **3.50**

Flint-Like Floor Varnish in Colors

With Flint-like Varnish in Colors you not only reduce your labor cost in half, but you can secure a first-class job in one operation. It stains and varnishes at the same time. The stain is mixed with our Flint-like Varnish which we have always guaranteed to withstand the hardest wear.

Knife Grip

It strengthens and prevents blade from breaking, saves fingers from cramping or tiring. Enables the user to cut through several thicknesses of paper, burlap or Lin-O-Wall. It is made of aluminum and cannot wear out.

No. 106 Knife grip only.....Each **$1.40**

Magic Knife Sharpener

Patent Pending

Just a few strokes quickly puts a keen cutting edge on the dullest knife.

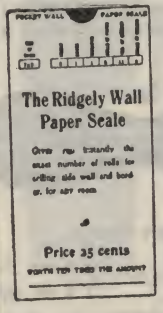

No unnecessary wearing down of knife edge by grinding a new bevel each time the knife is sharpened. The patented guides on the Magic Sharpener always hold the knife in the same proper upright position, securing the same cutting edge whenever used.

Fasten sharpener in a convenient place or on a small movable board that can be put away when not in use, with screws furnished. Place knife between guides and draw thru having knife resting firmly on cutting wheels. Repeat this operation until proper bevel is secured on knife.

To clean sharpener pass cloth thru recess found under blades.

The Magic Sharpener is made from the best steel obtainable. The cutting wheels are hardened and ground to warrant a smooth cutting edge on any knife. Guaranteed satisfactory. Good for you to use. Easy to sell to your customers.

Per doz.....**$20.00**
Each..... **2.00**

Wall Paper Scale

By pulling insert to size of room, it gives instantly the number of rolls of paper required for ceiling, wall and border, regardless of the number of openings. A mighty handy device, as every paper hanger can and will use it—perfectly reliable.

Size 2½ inches wide, 5½ inches long. vest pocket size.

Each.....**$0.16**
Per dozen..... **1.50**

Scraping and Putty Knives

Our scraping and putty knives are made by the foremost manufacturers of American cutlery. The blades are made from an extra fine grade of crucible steel; they are forged, ground, tempered and hafted by the most skillful workmen. We believe we have the very best goods in this line that are made. Every blade is fully warranted.

Big 3 Wall Brushes suit painters who know good brushes

Ridgelite Scrapers and Putty Knives

What is Ridgelite—It's a patented compound melted under intense heat and molded around the steel—no chance for a loose ferrule or handle.

It's hard as stone, tough as leather and smooth as glass.

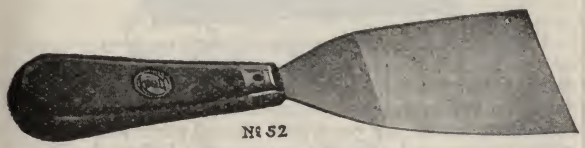

In addition to the many superior qualities Ridgelite has over the old wood handle, the shape is the stand-out feature. It's natural; fits the hand so comfortably that it's a real pleasure to work with it.

Ridgelite Seam Rollers

Made of same materials as handles of scrapers

Its use for Seam Rollers is even more beneficial, as wood and celluloid crack, loosen at axle, never revolve true and **always polish** the seam.

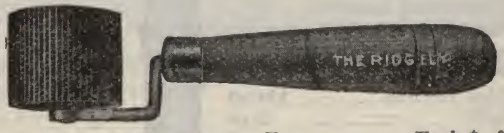

These Seam Rollers overcome all troubles. The knurling stops the flash. The axle, as provided in the roller, can't loosen and roller **must** run absolutely true. Water has no effect on Ridgelite, either hot or cold. Heat has no effect—we have laid rollers on a red-hot iron until iron cools, with no effect on roller. What would wood or celluloid do with such a test? And the price is no more than a good wood roller, and far less than celluloid.

Wizard Sign Scraper

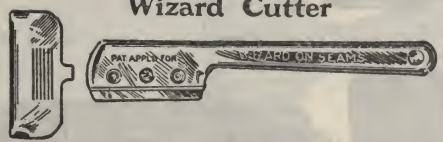

Can be used by janitors, painters, sign writers, window cleaners, machinists, auto repairmen, also in the home office or store.

Note—Guard that protects blade when not in use.

Each $0.40

Wizard Cutter

An article made the same way as the Scraper and is a handy tool in every home.

Each $0.40

Combination Paper Hangers or Stencil Roller

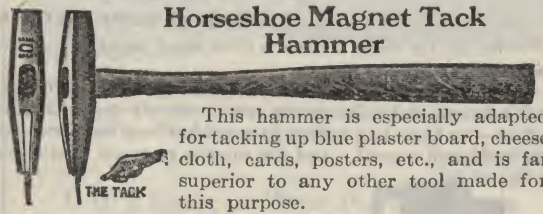

Made of light steel. The roller opens to receive the ends of the plush or cloth and when closed draws it tightly around the cylinder, leaving no seam. The covering can be taken off, washed and replaced in a few moments. In stenciling, spread the color on a smooth surface, feed the roller thereon and apply to the stencil. Different colors can be spread side by side and transferred to the stencil nicely blended.

For stippling, saturate the plush with color, run the roller one way only. For rolling seams of wall paper use heavy canvas, duck or felt for cover.

No. 59—7 inches wide $5.00

Horseshoe Magnet Tack Hammer

This hammer is especially adapted for tacking up blue plaster board, cheese cloth, cards, posters, etc., and is far superior to any other tool made for this purpose.

Head bright finish, 12-inch handle.

Steel Graining Combs

Made of the best English blue steel, packed in tin, divided cases, twelve combs in assorted sizes, to a set, equal to 30 inches, in 6, 9, and 12 teeth per inch. A good practical comb for general use.

Per set.....$2.50

Ridgely Rubber Comb

No. 103—This rubber comb contains three sizes of teeth—fine, medium and coarse, set in one handle. The most convenient rubber comb made.

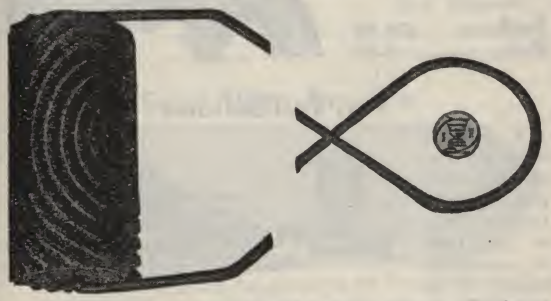

Each.....$0.60

Rubber Graining Combs

No. 102½—Made of good quality of rubber firmly set in wood handle as per cut. One to four inches in width with fine, medium and coarse teeth. Packed one dozen in box.

Price, per set.....$1.20

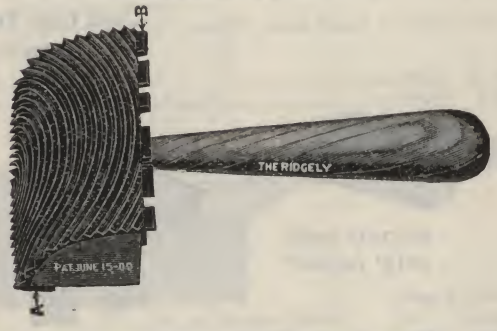

Magic Roller

Just push it along and it grains like magic. Produces medium heart grains. 3 inches wide, wire handle.

Price.....Each, $0.80

Hand Grainer

No. 10—Corrugations are fine and produce some beautiful effects. The comb and quarter-sawed features connected with this grainer make it a specially desirable tool for the practical man.

Price. Each.....$0.90

The Ridgely Flexible Grainer

A set of 5 Ridgely Flexible Grainers will produce perfect imitations of all grained woods in less time than has ever before been possible.

With the flexible Grainer heart work or quartered oak can be produced just as readily as straight grain.

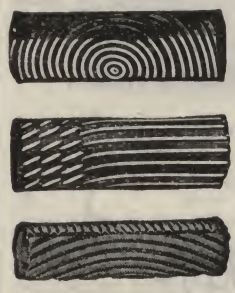

Nos. 1 and 2 are used for producing large effects, such as Walnut and Mahogany.

Nos. 3 and 4 produce open and heart grains.

No. 5 produces Quartered Oak grain and has attached to it the Comb or Blender.

Per Set.....$4.50

Davis Patent Grainer

(1 set)

A set of Grainers consisting of three rolls, made of the best rubber, 5 inches long and 1½ inches in diameter. The corrugated roll imitates any known growth of wood. The other vein roller reproduces quarter sawed oak grain. The roller comb, with three different sizes of combs, is especially valuable as an adjunct to the veining rollers to be used in connection with them in the graining of plain woods, as in stiles and rails. Therefore, one will be prepared to do any kind of oak, ash, chestnut, etc., graining without the use of any other tools.

Per set of 3 Rollers (as illustrated in cut).....$2.00

Extra Rollers, corrugated only for wide and narrow panels.

5 inches long, 1½ inches diameter, Each.....$1.00
3 inches long, 1½ inches diameter, Each..... .80

No. 29. Medium Ash, American, 2 Panel, Veneer.
No. 34. Medium Ash, Hungarian, 2 Panel, Fine Curls.

Roll weighs 1 3-4 lbs. Price per roll.....$4.50

Beautiful effects in flat wall paint by using the decorating roller.
See page 56.

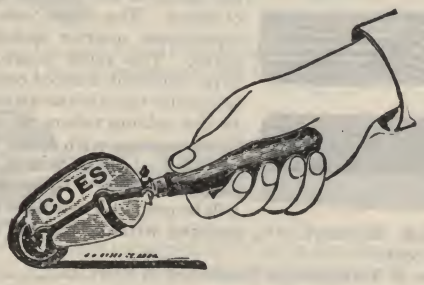

Decorating Roller

This device is side arm 5-inch roller covered with a sponge and about 2 inches in diameter. Its purpose is for decorating, and the ease with which you can do this is amazing. You simply saturate the sponge with the shade of paint desired and roll it on as per above. You can do two or more color work by letting each coat dry. The possibilities are unlimited. New white plastered walls make a fine ground or if walls are already painted use them. Once you try this roller out goes stencils, stipplers, panels, etc., as you can almost do a room while you are getting ready with them. The side arm feature is a big thing as you get right up to corners and no time lost with touching up with a brush or piece of sponge which generally shows a patch job anyhow no matter how well done. Full directions for use with every roller. Weight, 6 oz.

Price, each.....$2.50

Coe's Adjustable Gilding Wheel

Simplicity—Accuracy—Economy

The simplicity of this tool is a strong recommendation as by its use the novice can turn out just as perfect work as the man of long experience.

This wheel lays the ribbon of gold leaf with perfect accuracy and covers a stripe of any width from 3-16 to 1¼ inch, the leaf being already wound upon spools 69 feet to the spool and guaranteed 22½ carat quality. Nine different widths can be furnished.

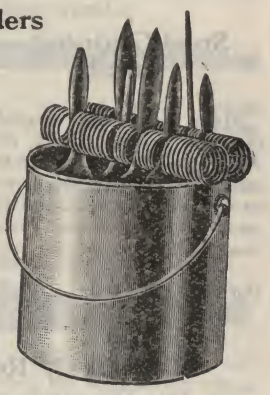

Full instructions for operating this wheel are furnished with each order.

Price. Each.....$9.00

Whitewashing and Painting Machines

Suitable for Cold Water Paints Only

Style C working parts are made entirely of heavy brass. It is equipped with spray pipe complete with ¼-inch cock and spray nozzle, one extra heavy tip, 200-pound pressure gauge, special galvanized sieve, follower wrench, one length of 1-inch suction hose and 10 feet of ½-inch discharge hose.

Each.....$64.00

Style G working parts are made of brass. The tank is provided with carrying handles on both sides, as well as a mechanical agitator which keeps the spraying liquid in constant agitation while being applied, and will hold 12 gallons.

It is equipped with a spray pipe complete with ¼-inch cock and spray nozzle, one extra spraying tip, special sieve, follower wrench and 10 feet of ½-inch discharge hose.

Each.....$55.00

Style J has all working parts made of brass, air chamber constructed entirely of brass, all of which is rigidly bolted to a substantial heavy iron frame, as illustrated here. Legs can be instantly removed and pump used in connection with barrel if so desired.

It is equipped with spray pipe complete with ⅛-inch cock and spray nozzle, follower wrench, and 10 feet ⅜-inch discharge hose.

Each.....$25.90

Wall Paper Remover

For moistening and removing old paper from walls this machine has no equal. It will do the work of five men.

This machine is a compressed air sprayer and with a few strokes of the plunger will operate automatically for five to fifteen minutes. It consists of a four gallon air and water tank within which is contained a brass pump and discharge connection ending in a spray nozzle. This nozzle produces a spray which is so fine it will all remain on the paper and no moisture falls on the floor.

Each.....$15.50

Painters Combination Heater

This heater is indispensable for painters when working in vacant buildings during the cold weather.

It will heat a pail of water in five minutes and a good sized room in ten minutes. The flame is very powerful. It may also be used for heating soldering irons or melting lead and glue.

Each.....$22.00

Ridgely's "Never Clog" Blow Torch

By the use of an automatic cleaning device we have not only eliminated all necessity for ever taking the torch apart or picking at it with a wire to clean it but have also eliminated all trouble due to the valve sticking.

The needle is the cleaner, and the valve is back of the needle, where it cannot be affected by contraction or expansion.

It will hold a steady flame in the most severe wind and is therefore of great value for outside work.

No. 2. Quart size.....$11.50

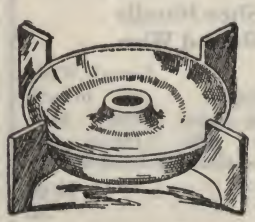

No. 209 Blow Torch

"Double-Blunt-Needle" for Gasoline of Kerosene

Most powerful quart torch ever produced. Works in wind and weather below zero. Burner, with superheating chamber, made of bronze generator metal. Lower needle is the shut-off. Top needle is cleaner only. Impossible to enlarge the orifice. Tank made of heavy-gauge seamless drawn brass. Equipped with automatic brass pump with double spring check valve. Splendid paint burner.

Quart size,.....$13.00

New Idea Painters' Stove

This stove will heat a pound of soaked glue in twelve minutes at a cost of less than one cent for alcohol. It can be carried in your pocket and weighs one pound.

Each.....$0.60

Downey Blow Torch

Men who have seen and used the new DOWNEY Blow Torch are amazed at its simplicity and dependability. No needle-point valves to clog or adjust. No pump to manipulate. No force feed to regulate. No carbon to affect burner. Just generate and light—that's all.

We cannot emphasize the safety of the DOWNEY Torch too strongly. It has been subjected to the most severe tests with sensational results. The tank is made of heavy seamless steel, drop forged with a steel welded end, and will withstand very high pressure. The Torch, when filled, will operate continuously for two and one-half hours when using the small mixer tube. It blows a long, pointed flame which does not spread or flare. This concentrated flame makes soldering or heating easy in restricted quarters.

To meet the requirements of those who need a heavy brush flame as well as a needle-point flame, the Downey Torch is equipped with Interchangeable Mixer Tubes. These tubes really make two torches in one.

The large mixer tube makes a long, clear, blue, intensely hot flame. It will not go out unless fuel is exhausted or torch is turned off. It will burn in any position.

Price.....Each **$12.00**

Binks No. 100 "Airway" Spray Brush

For spraying all kinds of paints, enamels, lacquers, varnishes and any kind of liquid finishing material, also for spraying bronze powder to artificial flowers. Furnished with a one pint copper cup and with an attachment so as to use pint or quart Mason jars.

Decorator's Relief Bulbs

Freehand relief decorating is the most beautiful and artistic class of work that can be done with these bulbs, and is fast becoming the most popular. The most delicate designs can be readily executed with perfect freedom and accuracy.

Each.....**4.50**

Galvanized Iron Kalsomine Buckets

Made of heavy galvanized iron, with drop ears so as to allow handle to fall out of the way when bucket is in use. Made in two sizes, twelve and fourteen quart.

	Per doz.	Each
12 quart	$6.20	$0.60
14 quart	7.20	.70

Paste Strainer

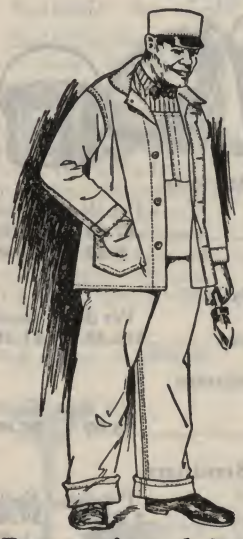

Is a valuable addition to a paper hangers' outfit; no lumps or other foreign matter can pass through it into the pail; saves much time and annoyance and gives better results, when the lengths of paper are being pasted and hung.

Each.....**$1.50**

In place on bucket

Painters' Overalls

Made of heavy white drill high apron, suspender back attached to waist band. This is one of the most satisfactory overalls made. All sizes from 32-31 to 42-34.

No. 200 Per doz. pair.....$27.00
No. 200.....Per pair, $2.50

Paper Hangers' Overalls

Made the same as above, but has an extra large pocket, especially made for paper hangers. All sizes, from 32-21 to 42-34.

No. 300 Per doz. pair.....$27.00
No. 300 Per pair,..... $2.50

Note—When ordering overalls give waist and inside leg measurements. **All special sizes, paper hangers' and painters' overalls 44-32 and over.....$2.80**

Painters' and Paper Hangers' Jackets

White drill jackets, good length, one pocket. Rounded shoulder, seam in back, made to fit. All sizes.

No. 400 Per doz. pair.....$27.00
No. 400.....Each 2.50

Note—In ordering jackets, give chest measurement. All sizes, 46 and over.....Each $ 2.80

Painters' and Paper Hangers' Caps

	Each	Per Doz.
No. 500. All sizes	$0.30	$3.30

Painters' Gloves

Made of heavy drill, well sewn, just what every painter needs to keep his hands in condition while using the brush.

Per pair.....$0.30
Per dozen pairs..... 3.30

Drop Cloths

For Painters, Paper Hangers and Kalsominers

Number 1 made of extra heavy weight Drill very close in texture to protect the carpets or furniture from brush drops, etc., while the work is being executed.

Number 2 is not quite as heavy as the No. 1 but sufficiently heavy enough to keep any paint or kalsomine from going through the cloth. They are exceptional values considering the present cost on cotton.

			Each
No. 1.	9x12.	Extra heavy drill	$8.20
No. 1.	12x15.	Extra heavy drill	13.00
No. 1.	14x16.	Extra heavy drill	15.50
No. 2.	9x12.	Heavy Drill	7.20
No. 2.	12x15.	Heavy Drill	12.00
No. 2.	14x16.	Heavy Drill	14.50

Shoe Protector

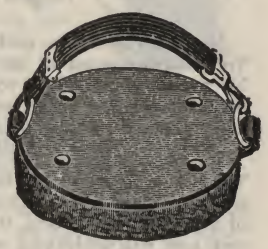

One of the most convenient things we have seen for the working painter. It is a white canvas shoe guard which slips over the foot and is retained in position by a metal spring. It is instantly put on or taken off, and saves the shoes from being spattered with paint or paste. When ordering always give size of shoe worn.

Per pair.....$ .80 Per dozen.....$9.00

Standard Knee Protector

No More Calloused Knees

Face of heavy leather, backed by a pad of ¾-inch felt. Bands of strong elastic web, polished nickel rings, buckles and snaps. For tile setters, floor scrapers, painters, janitors, and all others whose work necessitates kneeling.

Price, per pair.....$2.50

Muslin or Cheese Cloth

For lining board surfaces or imperfect plaster work before papering. Put up in bolts about 60 yards long and 1 yd. wide.

		Per yd
No. 1.	A fine quality, for best work	$0.21
No. 2.	A good quality, not as strong as No. 1	.18
No. 3	Ony suted for common or plaster work	.15

Sign Writers' Muslin

A specially prepared Muslin for making campaign banners, signs, streamers, etc., of a temporary nature. Put up in rolls, 36 inches wide; about 125 yards long.

	Per yd
Price in full rolls (100 yards)	$0.32
Price, less quantity	.36

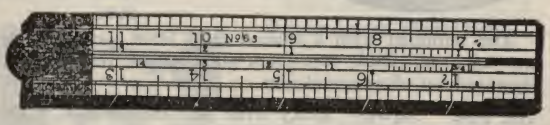

Zig Zag Spring Joint Rules

These rules are made of flexible hardwood, each joint containing a stiff spring, which holds the rule rigid when open. As shown in cut, there is no hole through the stock, where the joint is attached.

3-foot	Each	$0.50
4-foot	Each	.60
5-foot	Each	.70

For Terms and Other Information See Page 13

SHINGLES AND ROLL ROOFING

Prepared roofing may be easily and quickly laid in any kind of weather, and there are plenty of buildings all around you that need new roofs at this time of the year. Roll roofing or shingles may be laid right over the old roofs. Each roll bears the label of approval of the Underwriters' Laboratories, Inc.

Super Giant Shingles

The Super-Giant Shingle—50% thicker, 100% more rigid; and 35% more economical in cost of laying

On Richardson Super Giant Shingles you will find an exclusive color—Weathered Brown. It is a rich natural hue which blends well with all other slates. In fact, it is now being blended on the same shingle unit with Jade Green to form an Opal color and with Tile Red to form a Bronze Mosaic color. Richardson Super Giant Shingles are also made in solid colors—Weathered Brown, Jade, Green, Tile Red, and Blue Black.

10″x14″—3 bundles to square (274 shingles) weight approximately 285 lbs. Laid 5″ to the weather.

	Per Square
Opal, Bronze Mosaic	$20.00
Weathered Brown, Jade Green, Tile Red, Blue Black	19.50

Lok-Top Asphalt Shingles

Endurance, Beauty, and Economy are all combined in the Lok-Top Asphalt Shingle. Each shingle is marked with notches and tabs to make the application simple. Pure Zinc Loks and Nails come packed complete in each bundle.

	Per Square
Size 13⅓″x13⅓″—1 bundle to square, 130 shingles, weight approximately 130 pounds.	
Jade Green, Tile Red, Blue Black	$11.00

Flexatile Standard Individual Shingles

A stiff, strong, shingle, uniformly well made and beautifully surfaced with genuine slate. Extremely popular for a wide variety of uses.

Size 8″x12¾″—4 bundles to square, 424 shingles, weight 240 lbs.—250 lbs., laid 4″ to weather,

Price per square, Green, Red, or Blue Black.....$13.00

Flexatile Shingle Roofing

A permanent shingle design EMBOSSED right on the roll, giving the effect of GIANT SHINGLES at a very low cost. Can be laid equally well over old shingles or new sheathing. Made in two styles to be laid either across (a) or up and down (b) the roof.

Packed in rolls 108 square feet, 36*ll* wide with galvanized nails and cement, weight approximately 90 lbs.

Price per roll, Green or Red.....$8.00

Flexatile Style 4 Slab Shingles

The first Slab Shingle made in the West. Four shingles in one. Easily and quickly laid. Made in two sizes.

Size 10″x36″—2 bundles to square, 112 slabs, weight 190 lbs.

Price per square, Green, Red, and Blue Black.....$14.00

Size 12½″x36″—3 bundles to square, 112 slabs, weight approximately 240 pounds.

Price per square, Green, Red, and Blue Black.....$16.50

Flexatile Slate Surfaced Roll Roofing

A Richardson Product that combines the quality of all Flex-a-Tile House Tops with the economy of roll roofing. Its fine, firm surface of Flex-a-Tile slate-flakes is smoothly ENAMELED on and STAYS on.

Packed in rolls of 108 square feet, 36″ wide, weight approximately 85 lbs.

Price per roll, Green or Red	$5.00
Price per roll, Weathered Brown	5.50

Success Roll Roofing

A good grade of Talc Surfaced Roll Roofing made 36″ wide, packed in rolls of 108 square feet.

Medium, 45 lbs.	$4.80
Heavy, 55 lbs.	5.30

Blue Plaster Sheathing

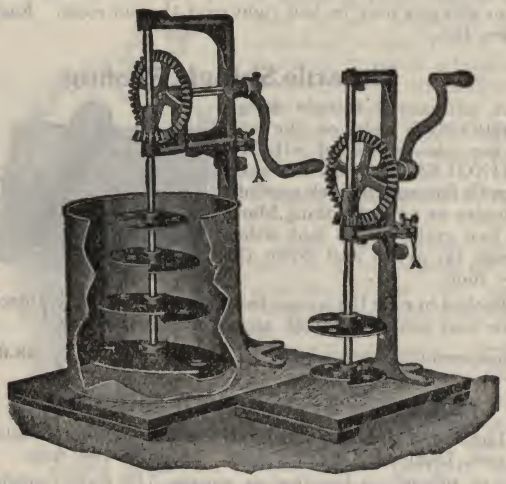

An exceptionally desirable, material for insulating and sheathing. Can be used over boards or fastened to studding, making a neat and durable finish. Used in place of plaster for walls, ceiling and wainscoting.

Rolls 36″ wide, containing 250 sq. feet, per roll	$3.00
Rolls 36″ wide, containing 500 sq. feet, per roll	5.50

If you are Looking for a High Grade Roofing Paint—Use—VITRO LASTIC, see page 43.

Paint and Color Mixers

A machine that will pay for itself in a very short time. It will mix paint, paste, kalsomine, stains, wood filler, etc , and will do more in five minutes than any painter could do in one hour. It not only saves time and money, but mixes material more thoroughly than could be mixed by hand.

It will break 100 lbs. of lead in 10 minutes, and when broken with this machine it will spread easier, better, faster and go farther, as it tears apart the small corpuscles of lead, enabling it to take up more oil—and look at the labor saved. In mixing colors dump them all in at once, even to lampblack, and the machine will mix them thoroughly. Use any kind of a pot, keg or can to mix in. Made in two sizes.

No. 10, the large one, is 28 inches high, weighs 35 lbs. has 4 discs, diameter of each 14½, 10½, 7, 6 inches respectively. This machine will break 100 lbs. of lead or mix any quantity of color up to 12 gal.

We make a heavy galvanized mixing tank for the No. 10 machine, 16-inch diameter, 15 inches high, with drop handles riveted on.

No. 20, small size, is 24 inches high, weighs 20 lbs., has two discs, diameter as follows: 7 inches and 6 inches, respectively. Will mix any quantity up to 5 gallons.

No. 10.	Large machine only, each	$32.00
No. 11.	Mixing tank for No. 10 machine, each	13.00
No. 20.	Small machine only, each	26.00

Paint Mills

No shop should be without a good paint mill with which you can grind your colors in oil and utilize many things which otherwise would go to waste.

	Each
No. 3. Hand Mill, capacity ½ gallon	$24.00
No. 2. Hand or Power, capacity 1 gallon	32.50

Window Bracket or Jack

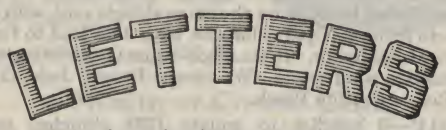

No. 287. Strong, folds up closely and weighs but 24 lbs. It is made of the best material.

It is safe and can be quickly adjusted to any window. Particularly useful for setting glass and painting sash. Regular size, 4 ft. 4 in. board.

Each $13.00

White Enamel Letters

Made of the finest hard enamel on copper plates; the shape and finish make them easy to put on and quickly cleaned. They are more legible than any other letter and will never wear out, while the under-noted special prices make the first cost much lower than anything else that can be used for this purpose. Letters can be taken down and removed at any time.

Wide Block

This is the style most used.

Ridgely Adjustable Scaffolds

For interior or exterior work there is nothing on the Market better than the adjustable scaffolds. They will pay for themselves in time saved on one job. The weight when scaffold is extended does not depend on a little old wing bolt screwed up with your fingers but is held by malleable iron dogs clamping the step adjustable any way you want and absolutely safe. The above illustration shows what a time saver it is as you get at your work far easier than trying to work from ladders.

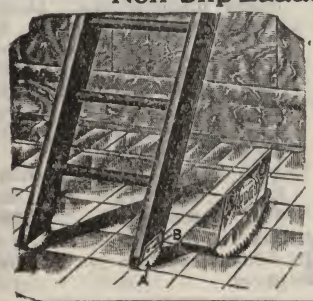

Opened ready for business either in or outside

A-pair folded ready to move to next job.

Made of the best white fir. Notice at "C" in illustration the safety device. This is a malleable iron dog that grasps the ladder making you absolutely safe. There are also wing nut clamps at bottom. "G" is a bumper 31 inches long. This is the platform support; no matter how high the scaffold is extended you are *always* 31 inches from the wall and safe. Weight, 6 lbs. per foot.
No. 701. 6½ ft., extends to 11 feet, per pair.....**$32.00**

Non-Slip Ladder Bottom

Fastened on the bottom of any ladder, making it absolutely impossible for your ladder to slip. It is made of heavy vulcanized rubber. No painter who values his life should be without one.

Per pair.....**$ 1.00**

Per doz. pair.....**11.00**

Abuv-all Roof Brackets

This bracket is used successfully on wood and asphalt shingles as well as composition roofing.

In using on wood shingles the bracket clamps itself to shingle at the top while the teeth at the bottom also help to prevent possibility of slipping.

On asphalt shingles, the shingle is raised and under this shingle, two nails are used to attach bracket which when through using may be slipped off without removing the nails. The teeth are prevented from entering roof by using a small wood strip or block.

It is quickly and easily adjusted to hold a 12-inch plan level on the different pitches of roofs as shown in picture.

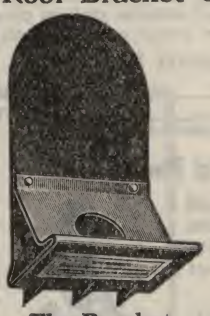

It may be used for holding a ladder upright, also laying on the roof and for swinging stage supports.

Made entirely of steel, thoroughly tested, strong and dependable.

Folds into small space. Length, 13 inches: weight, 3½ pounds.

Price, per single bracket.....$3.00

Roof Bracket or Safety Stage Support

The Bracket

Its Use

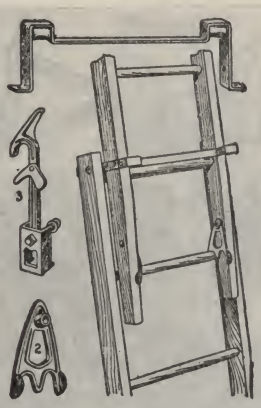

This bracket has a shoe made of malleable steel lasting, in which rests the point of the scaffold hook or stage hook which carries the block and tackle.

This bracket is the only tool that the painter needs for working on any kind of a shingled roof, doing away with ladder hooks, paint pot holders, stage supports, nailing on cleats, etc., one simple tool covering all of the painter's needs on the roof.

If you wish to stand a ladder on a roof, place a couple of brackets where you want the ladder and set it on them. Size of Bracket, 5½x10 inch; length of tooth, ½ inch.

No. 601. Price per set of six..... Set, **$6.00**
No. 601. Single bracket..... Each, **1.30**

Ajax Extension Ladder

Made from selected straight grained vertical fir, Norway pine or fir and hickory rungs. Our new double roller single piece top iron is much stronger than two single rollers and strengthens the ladder at its weakest place. Our hooks are extra heavy malleable iron. Can be furnished in any length section from 8 to 20 feet long.

	Per foot
In two sections, 20 to 32 ft.	$0.70
In two sections, 34 to 40 ft.	.76
In three sections, 30 to 60 ft.	.80

Rope Extension Ladder

The top section of this ladder is raised and lowered by a rope passing through pulleys and operates by windlass. Has self-locking hooks for locking top section, automatic in their action. The construction of ladder is same as our regular extension ladders.

In two sections, 20 to 32 ft. Per foot,	$0.70
In two sections, 34 to 40 ft. Per foot,	.76
Windlass Attachment, for 2 section ladders with rope and automatic hooks for raising and lowering upper section, extra	$3.20
Plain Rope Hoist, for 2-section ladders, extra	3.00

Long Ladders

Made of selected straight grained pine or fir with hickory rungs, and in lengths from 8 to 20 feet.

8 to 16 feet Per foot,	$0.60
18 to 20 feet Per foot,	.70

Rapid Ladder Rung Replacer

A device manufactured from Cold Rolled Steel for replacing broken rungs in ladders. It is the only invention ever placed on the market for this purpose.

It is an absolute necessity in repairing an extension ladder. Should the rung or the side pieces on an extension become broken, all that is necessary is to nail or screw an inch strip on inside of upright, then screw on rung replacer as shown in cut.

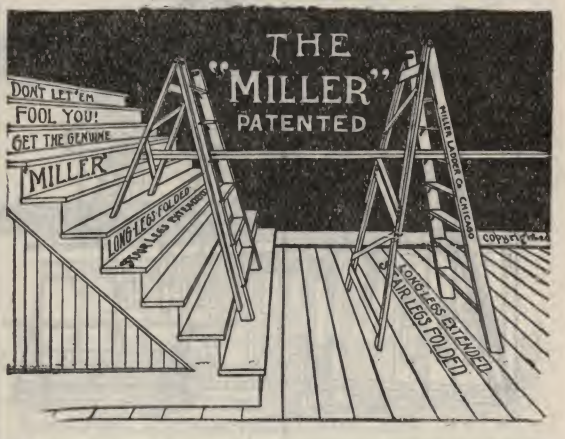

Per Dozen	$1.50
Each	.14

Ladder Rungs

Ladder Rungs made of Selected Hardwood, sizes 14, 16, 18, 22 and 30 inches. Each $0.24

The Miller Ladder

Above cut shows a pair of Miller ladders fitted with the patent **Stairway Attachment:** one extended in use and the other with stairway legs folded and entirely out of the way. Cut also shows the peculiar adaptability of this ladder to scaffold work. Every step is braced on each side with our patent **Drive Brace,** which makes the whole structure absolutely rigid. An iron rod reinforces every step, supported by large octagon washers, covering nails, securing steps, preventing them from falling from mortises.

	Plain		Plain
Length, 5 feet	$6.30	Length, 8 feet	$11.20
Length, 6 feet	7.50	Length, 10 feet	14.00
Length, 7 feet	8.80	Length, 12 feet	16.80

Any of the above sizes with stairway attachment, $3.00 extra.

Painters' Favorite
Similar to "The Miller" With Lugiron at Top

Possesses every merit of durability in construction, since a steel rod passes under every other step, supported by large steel formed disc washers, which cover nails driven through sides and into ends of steps, preventing nails from getting loose as well as sides from spreading.

None better for the price.

5 feet	$4.50
6 feet	5.40
7 feet	6.30
8 feet	8.00

I. X. L. Step Ladder

The best and strongest ladder manufactured. Made from clear selected Pine. Is especially finished. Stamped steel hinges secured with rivets. Top riveted. Standard width step and a rod under every step. Washers supporting each rod. Shelf attached.

4 ft.	$3.90	8 ft.	$ 7.70
5 ft.	4.80	10 ft.	10.60
6 ft.	5.80	12 ft.	12.70
7 ft.	6.70		

Shelf included in above prices.

The Handy 2 in 1 Ladder

A safe, strong, handy ladder that will give double ladder service at the single ladder price. It is not only a strong, high-grade step-ladder, but when opened up as illustrated, will give you double the length of the step-ladder. It is made with a heavy, unbreakable hinge which makes a positive lock in both straight and step-ladder position The ladder is made stronger by having an iron rod under each step.

Scaffold Irons With Safety Back

24 1/2 inches wide

Is designed to meet the demand of all contractors for a safety guard rail which can be erected on a swing stage. By slipping a piece of 2 x 4 lumber in loops at top it makes a perfect guard rail for this purpose.

No. 615. Price, including bumpers, per pair.....$16.50

Use Flint-Like Floor Varnish and Save Money

Swinging Scaffold, Ladder Bracket

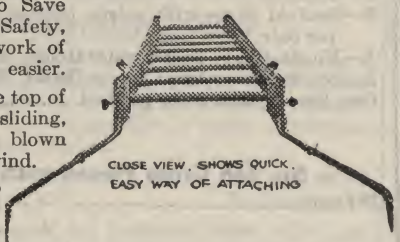

It is made entirely of wrought iron. Does not depend on the ladder rungs. Instantly adjusted on the side rails. Immovably fastened with the thumb screws. The whole strength of the side rails of the ladder are its support in every case more easily adjusted for cornice, gable or wall work than any other bracket on the market. By using more ladders and more brackets any length of building can be finished at one stretch.

No. 606. Price, per pair.....**$10.00**

Seaman Safety Bracket

Is designed to Save Labor, Insure Safety, and make the work of all ladder users easier.

It prevents the top of a ladder from sliding, rolling, or being blown over by the wind.

The side thumb screw holds firm to side and adjusts to fit any size rail up to 1⅜ inches in thickness. The top thumb screw holds firm and adjusts to fit any ladder from 2 inches to 3¾ inches.

The clip on the arm of the Safety Bracket keeps the pail or firepot from sliding, and keeps it away from the glass or surface over which the ladder is placed.

The Safety Brackets will fit either side of ladder, being alike in construction.

Per pair..... **$9.00**

Ladder, Jack and Scaffold Support

For Painters, Tinners and Building Trades

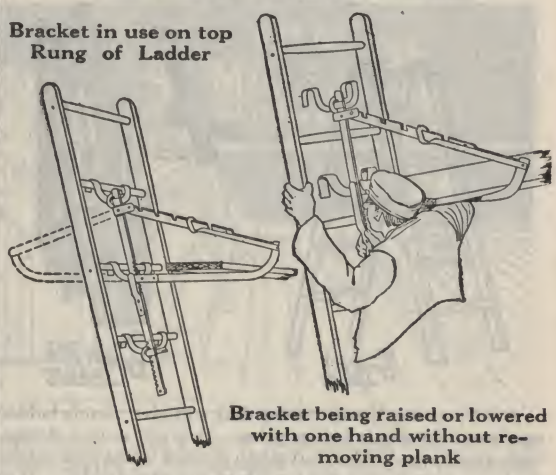

The cut shows the distinctive features of the Ridgely Bracket—it can be reversed and attached so that the top rung of the ladder can be used. This feature is not found in any other bracket made.

It is always perfectly rigid yet is instantly and easily adjustable to any desired position. Works equally well rightside up or upside down, and is absolutely safe in any position — only the highest grade of steel is used and perfect workmanship is insured by rigid inspection.

No. 600. Price, per pair.....**$5.50**

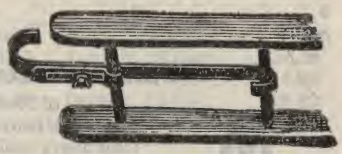

The Dunlap Ladder Bracket

A safety ladder bracket, adjustable and reversible. Weight placed on this bracket is distributed on three rungs. Should one rung be defective and break, the other two will hold. Made of best grade of steel and accurately constructed. Weight—23 pounds per pair.

Price per pair.....**$10.00**

Adjustable Safety Hook

The cut shows how readily and securely this hook can be fastened to the ladder. When the point is dropped over the ridge board you can with safety reach any part of the roof corner or chimneys where work is to be done.

No. 605.....Each, **$0.70**

Universal Extension Plank

Can be adjusted to fit any space. Does not spring. Will not warp. Always lies even. Affords a firm footing. Lighter than a plank of equal size. Very strong and durable. Can be carried up any stairway.

Made of finely selected southern pine, strongly ironed, well riveted and thoroughly inspected.

		Each
No. 1.	6 ft. closed, 10½ ft. extended, 11½ in. wide	$ 8.50
No. 2.	8 ft. closed, 13½ ft. extended, 11½ in. wide	10.50
No. 3.	10 ft. closed, 17½ ft. extended, 11½ in. wide	15.00

Brushes

We catalog only such goods as can be fully warranted. Prices are as low as is consistent with the quality quoted and money can be saved by ordering from our line. Should any of our Brushes, having been used for the purpose intended, fail to give proper service, it can be returned and a new one will be supplied without charge. We call special attention to Brushes listed as "H. B. Co.'s Best." Length of hair means clear of Band.

Painters' Stucco or Wall Brush
